**QUOTABLE:** "So many things go into a project of this magnitude that I was overwhelmed attempting to get all things accomplished within the time frame allotted. Without the tremendous assistance and on-going support and encouragement from Nancy and the SEFP our goals could not have been attained in the time frame needed. Placing plans, thoughts and research into an organized format requires more than just filling in blanks. The ideas, thought, contacts, and effort Nancy supplied, as well as formatting the specifics in written form, provided the necessary detail we needed to move forward in an expedient fashion. Our sincere thanks to Nancy, SEFP and Mark Slade of SBDC.
