NUMBER OF JOBS: 2

BACKGROUND: Twenty years as an Occupational Therapist (OT) prepared me for business ownership in Salem, my home town. My passion for OT started in 1984 when my grandmother sustained a stroke. Since that time my goal has been to come back home and assist her in any way I could with her rehabilitation. In 1991, I pursued my goal of private practice serving nursing homes, a rural hospital, and large metro hospitals, working for others as a clinical coordinator, in-house therapist, Rehab manager & therapist, and in UE/hand therapy. Throughout the years, I have stayed connected to my roots, where my heart has always wanted to serve.

ASSISTANCE REQUESTED: Business Plan

RESULTS: New business

QUOTABLE: *"Peace through Projections - SEFP and the business planning process was easy and accessible, yet thorough. Not knowing what to expect from a free service, Nancy was very educational and thought provoking. She asked open-ended questions. I had a skeleton business plan however, through the process I valued the full body of information provided to me, especially the projections. SEFP has excellent resources available which expedited data retrieval for a specific plan which gives me the peace of mind to now focus on my patients!"*
