BACKGROUND: The Uecker's began manufacturing candles and thought of the idea to offer them as fund-raisers to churches, clubs, schools and organizations. The assistance in researching the potential for growth helped them determine the direction and feasibility of growth through the numbers which were put together.

QUOTABLE: "It was very helpful for someone else to put together our plan for doing business. The SEFP and SBDC were very useful sources of information and four more eyes looking for barriers to accomplishing our goals. Thanks for providing this assistance."

Patti is shown pouring candle tins to fill another order.

Finished products available as fund raisers.
