BACKGROUND: I have always wanted to own my own agronomy service business. I have spent 20+ years in the agronomy business, including working as a chemical rep, a wholesale rep, and a retail manager. Andrew skills are more in the mechanical and computer areas. Our unique skill sets complement each other well.

Our interest is to develop a business model based on honesty and integrity. Our goal is to promote products and services that will make our customers more profitable. Our customers must be profitable for our business to be profitable.

ASSISTANCE REQUESTED: Business planning

RESULTS: We were able to use the financial documents provided to gain needed financing as we started this new business.

QUOTABLE: *SEFP was instrumental in helping us gain our financial assistance.*
